COMMENTS

THE END OF BORING NOTEBOOKS

Notebooks store our ideas – and that’s what they should look like. That’s why we produce notebooks that are not only fit for your ideas, but also contain a whole bunch of ideas themselves. They are made of Swedish premium paper, thread-stitched and bound in smooth Recycled leather or jeans label material. The cover motifs are applied via silk-screen printing. This craft, also used by artists such as by Warhol or Roy Lichtenstein, makes the colours more intense and the colour application thicker than via other printing techniques. Notebooks by nuuna are small design objects, collector’s items pieces and the beginning of the end of boring notebooks.
